## Statement of intent

At Waingels, we take our responsibility towards the safety of staff, visitors and pupils very seriously. To that end, we use surveillance cameras to monitor any instances of aggression or physical damage to our school and its members.

The purpose of this policy is to manage and regulate the use of the surveillance and CCTV systems at the school and ensure that:

12. We comply with data protection legislation, including the Data Protection Act 1998 and the General Data Protection Regulation (GDPR) – the latter of which comes into effect on 25 May 2018.
13. The images that are captured are useable for the purposes we require them for.
14. We reassure those persons whose images are being captured, that the images are being handled in accordance with data protection legislation.

This policy covers the use of surveillance and CCTV systems which capture moving and still images of people who could be identified, as well as information relating to individuals for any of the following purposes:

15. Observing what an individual is doing
16. Taking action to prevent a crime
17. Using images of individuals that could affect their privacy

- Keeping comprehensive and accurate records of all data processing activities, including surveillance and CCTV footage, detailing the purpose of the activity and making these records public upon request.
- Informing data subjects of how their data captured in surveillance and CCTV footage will be used by the school, their rights for the data to be destroyed and the measures implemented by the school to protect individuals' personal information.
- Preparing reports and management information on the school's level of risk related to data protection and processing performance.
- Reporting to the highest management level of the school.
- Abiding by confidentiality requirements in relation to the duties undertaken while in the role.

## **5. The data protection principles**

5.1. Data collected from surveillance and CCTV will be:

- Processed lawfully, fairly and in a transparent manner in relation to individuals.
- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further

processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes.

- Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.
- Accurate and, where necessary, kept up-to-date; every reasonable step will be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay.
- Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods, insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes, subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals.
- Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

- Warning signs have been placed throughout the premises where the surveillance system is active, as mandated by the ICO's Code of Practice.

- The surveillance system has been designed for maximum effectiveness and efficiency; however, the school cannot and does not guarantee that every incident will be detected or covered and 'blind spots' will exist on a site of this size

- 9.2. A DPIA will be reviewed prior to the installation of any additional surveillance and CCTV system equipment.
- 9.3. If the DPIA reveals any potential security risks or other data protection issues, the school will ensure they have provisions in place to overcome these issues.
- 9.4. The school will ensure that the installation of the surveillance and CCTV systems will always justify its means.
- 9.5. If the use of a surveillance and CCTV system is too privacy intrusive, the school will seek alternative provision.
