

ST PAUL'S WHOLE SCHOOL PROVISION MAP 2023-2024 by AREA OF NEED

Wave 1 provision- First Quality Teaching for all pupils (the responsibility of the class teacher)

Wave 2- short term intervention. This is not exclusively for children with SEND

Wave 3- longer, targeted intervention to support those with specific Special Educational Needs.

| Universal/Core Provision/Wave 1 | |
|--------------------------------------------------------------------|----------------------------------------------------------------------|
| Cognition and Learning | Speech, Language and Communication |
| Wave 1 is quality first teaching whereby teachers are aware of | Children are given regular opportunities to develop their |
| the needs of all the children in their class and plan and address | communication skills through the use of talk partners, class |
| these through their teaching. Teaching is adapted to different | discussion, small group work and drama. |
| learning styles and to match the needs of the children. Children | |
| are grouped flexibly in different subjects to provide challenge | Teachers are able to use different levels of questioning according |
| and support in areas where they most need it. | to children's varying language needs (Blank Levels). |
| Social, Mental and Emotional Health | Physical/sensory |
| The PSHE curriculum is designed to address social and | Our school offers disabled access including ramps and disabled |
| emotional issues that children may face encourages | toilets and a disabled shower. |
| participation in discussion and role play to explore any issues | All classrooms are interactive and engaging. The learning |
| they may encounter. | environment supports visual learners by displaying things the |
| Teachers develop a rapport and understanding of the pupils in | children may need to call upon in their day to day learning e.g. key |
| their care and are on hand to offer social and emotional | words, phonic sounds, tricky words, adverbs and adjectives. |
| support on a day to day basis. All children are able to access a | All classrooms display a visual timetable to inform children of the |
| daily drop in called 'Talk Time' to tell a Mental Health First Aid | day's routine but also to support those on the autistic spectrum. |
| trained staff member about anything that is worrying them. | In key stage one and lower key stage two, children often sit on the |
| Children complete a wellbeing survey twice a year to ascertain | carpet in front of the teacher during a task input. This ensures all |
| pupil voice about their emotional wellbeing and to enable early | children are able to fully hear the task and what is expected of |
| intervention to support needs. | them. |
| Teachers and SENDCO are able to use Leuven's Scales to assess | |
| children's wellbeing and involvement. These are measured on | |
| Learning Walks by the SENCO and day to day by class teachers. | |

| Targeted/Enhanced/Wave 2 | |
|-----------------------------------------------------------------|----------------------------------------------------------------------|
| Cognition and Learning | Speech, Language and Communication |
| We provide a range of Wave 2 interventions to help children | If a child is known to have had a previous speech and language |
| 'catch up' and make expected progress. | difficulty or has a mild speech difficulty e.g. pronunciation of one |
| These include: | specific sound or word then the class teacher and Learning |
| NESSY Reading and Spelling | Support Assistants address it in the classroom through correct |
| Flashspell | modelling of the sound/word and asking child to repeat correctly. |
| Additional Reading and Paired Reading | |
| Memory games (computer based) | Early Years Practitioners use some Makaton signs in their day to |
| Reading Comprehension groups | day routine to support listening and understanding of instructions |
| Keep Up (Little Wandle) | for visual and kinaesthetic learners. |
| Handwriting groups | |
| Maths Pre-Teach | For children who might need additional support with Social |
| | Communication; Lego Therapy and Social Skills groups take place |
| | to support with turn taking and conversation skills. For older |
| | children this might involve role playing situations and looking at |
| | decision making in social situations through social stories. |
| Social, Mental and Emotional Health | Physical/sensory |
| We are fortunate to have the services of a home school link | In cases where children are known to have a physical or sensory |
| worker, who works with both children and their families around | impairment that doesn't impact too greatly on their ability to |
| social, mental and emotional issues. Children are identified as | access the classroom or curriculum, teachers undertake steps to |
| needing this additional support by their teachers; the SENDCo | ensure they minimise the impact e.g. sitting a child directly in |
| or the Senior Leadership Team. Our home school link worker | front of the teacher on the carpet so that they can hear clearly |
| works with children and/or their families once a week or on an | and can lip read if necessary. |
| ad hoc basis, and helps to address a wide variety of issues. | |
| Manalas have an electron free stings at tites and Course t | For children with fine motor skills difficulties we follow a |

| Assistant to support children with self-esteem and emotional | OT Resource pack for School Age or Early Years). |
| needs. Three more staff members are ELSA trained and provide | We also sook guidance using the Occupational Therapy Halaline |
| <u> </u> | We also seek guidance using the Occupational Therapy Helpline. |

| ad-hoc ELSA support, and five more are Youth Mental Health First Aiders offering Talktime. | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| The SENDCO runs a 'Safe Space' four lunchtimes per week in the school garden where children with additional needs can come to take part in sensory and nature based activities. This space is an optional provision for children who can find the playground overwhelming; need support with communication; social skills and/or managing feelings and behaviour during unstructured times. It can also be offered to children who might be facing unsettling circumstances in their home lives and may need additional social and emotional support on an ad hoc basis. Our Deputy Head runs a weekly club for Young Carers to give | |
| them a space to play games and have fun as well as benefitting | |
| from additional social and emotional support from a Mental | |
| Health First Aider. | |
| Personalised/Specialist/Wave 3 | |
| Cognition and Learning | Speech, Language and Communication |
| Depending on the type of need, children access 1:1 or small | We have three Elklan trained teaching assistants who work with |
| group provision. Interventions include small group maths and | those children identified as having speech and language |
| literacy sessions where children are taught by a highly skilled practitioner, working on the specific areas they are struggling | difficulties by the speech and language team. They work with children several times a week for about 10-15minutes at a time, |
| with. | focusing on their individual targets. |
| For those children with specific phonic and/or reading issues we | |
| run the Little Wandle Rapid Catch Up programme to support | They are able to use assessment tools such as PORIC, TALC and |
| phonological awareness and embeds phonics skills for reading. | Renfrew to assess vocabulary needs and language levels and use |
| We also have staff trained to run: | |

| A First Class at Number maths programme, which supports the | WordAware resources to support planning for children with |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------|
| learning and consolidation of core areas of maths and develops mathematical skills. | language needs. |
| A Rapid Writing Programme to support those who are | We regularly seek resources, training and guidance from County |
| significantly behind in their writing. | Speech and Language Professionals and we have a |
| Precision Teaching to tackle specific areas of learning | Communications Champion who liaises directly with the Local |
| depending on the needs of the child e.g. sight vocabulary, | Authority to keep us up to date with developments in SALT. |
| spelling of high frequency words or learning of key maths facts. | |
| | We use resources such as Comic Strip Conversations to support |
| For those children who have an EHCP, in most cases we offer | children 1:1 with decision making in real world situations and to |
| access to a Learning Support Assistant to support them in their | help support restorative conversations by representing different |
| learning and to help them develop independence as learners. | people's points of view using visuals. |
| Social, Mental and Emotional Health | Physical/sensory |
| Our Home School Link worker, works with children and their | For those children with specific sensory issues such as visual or |
| families to support social and emotional needs, particularly | hearing impairment, the school liaises with the Surrey physical |
| those that are experiencing challenges at home rather than | sensory support team. Members of the team come in to school to |
| school. She is highly trained and is able to provide direct advice | assess the needs of individual children and to offer guidance and |
| and guidance as well as able to signpost families to additional | support to teachers about how best to meet a child's needs. |
| local support services. | Special measures are taken, in line with the advice given, to |
| | ensure that the impact of a child's impairment is minimised in the |
| Our trained ELSA and Youth Mental Health First Aiders support | classroom. |
| children who have specific emotional needs and/or need | |
| support to develop self-esteem or social skills. | Some children require a personalised plan of movement breaks |
| | and/or a Sensory Diet to meet their needs and staff use the |
| We have staff trained in the Educational Psychology-based | Occupational Therapy Resource Pack and the OT Helpline to help |
| programme 'Circle of Friends' for individuals identified as | plan a tailor-made programme of activities for specific children. |
| needing very specific and targeted support with social skills and | |
| making friends. | For those children who have been assessed and set targets by the |
| | Occupational Therapy team, they receive blocks of OT support, |
